# FAMILY DAY

IN CELEBRATION OF RAILWAY 200

**YEAR 1  
NIGHTINGALES**

*Ammara*

**KATES HILL  
PRIMARY**  
Dudley

PROFITS WILL GO TO:

# FOREWORD

**Neil Fulton,  
Chief Executive, BCIMO**

**We're thrilled to welcome the community for a day filled with celebration, information, and shared experiences. This event brings together families, partners, and rail enthusiasts from across the region to explore the past, present, and future of rail — all while raising vital funds for five incredible charities.**

There's something for everyone to enjoy, with a packed programme of activities and experiences — including exclusive rides on the Coventry Very Light Rail (CVLR) vehicle, the chance to step aboard our historic T69 tram, and the chance to try out our state-of-the-art driver simulator. Families can look forward to a wide range of attractions, from fairground rides, model railways, and creative crafts to face painting, family-friendly live shows, and delicious food.

We're proud to be raising funds for five amazing charities: The Kaleidoscope Plus Group, Railway Benefit Fund, 4Louis, Railway Children, and Young Lives vs Cancer. Every ticket, raffle entry, and donation helps support their vital work.

Today also marks our involvement in Railway 200, a national celebration of 200 years of rail. As we reflect on that remarkable legacy, we also look ahead — and BCIMO is proud to be helping shape the next generation of rail innovation and sustainable transport.

A special thank you goes to Coventry City Council, our main event partner, for providing the Coventry Very Light Rail rides that form such a memorable part of today's experience.

We're also incredibly grateful to all our sponsors, whose financial support and in-kind contributions have helped make today possible. Their range of stalls, shows, presentations, and activities has helped create a vibrant and engaging experience for everyone, playing a key role in the success of today's event.

A heartfelt thank you to our incredible volunteers helping today, and to the BCIMO team, whose time, energy, creativity, and commitment have been instrumental in bringing this ambitious event to life. Today simply wouldn't have been possible without you.

A special thank you also goes to Pete Waterman OBE — music legend, proud ambassador for Railway 200, and President of the Railway Benefit Fund — for officially opening today's event.

And thank you to the Mayor of Dudley, who will be introducing our charity raffle, which brings the day's programme to a close.

We hope you have a fantastic time.

## Coventry VeryLightRail

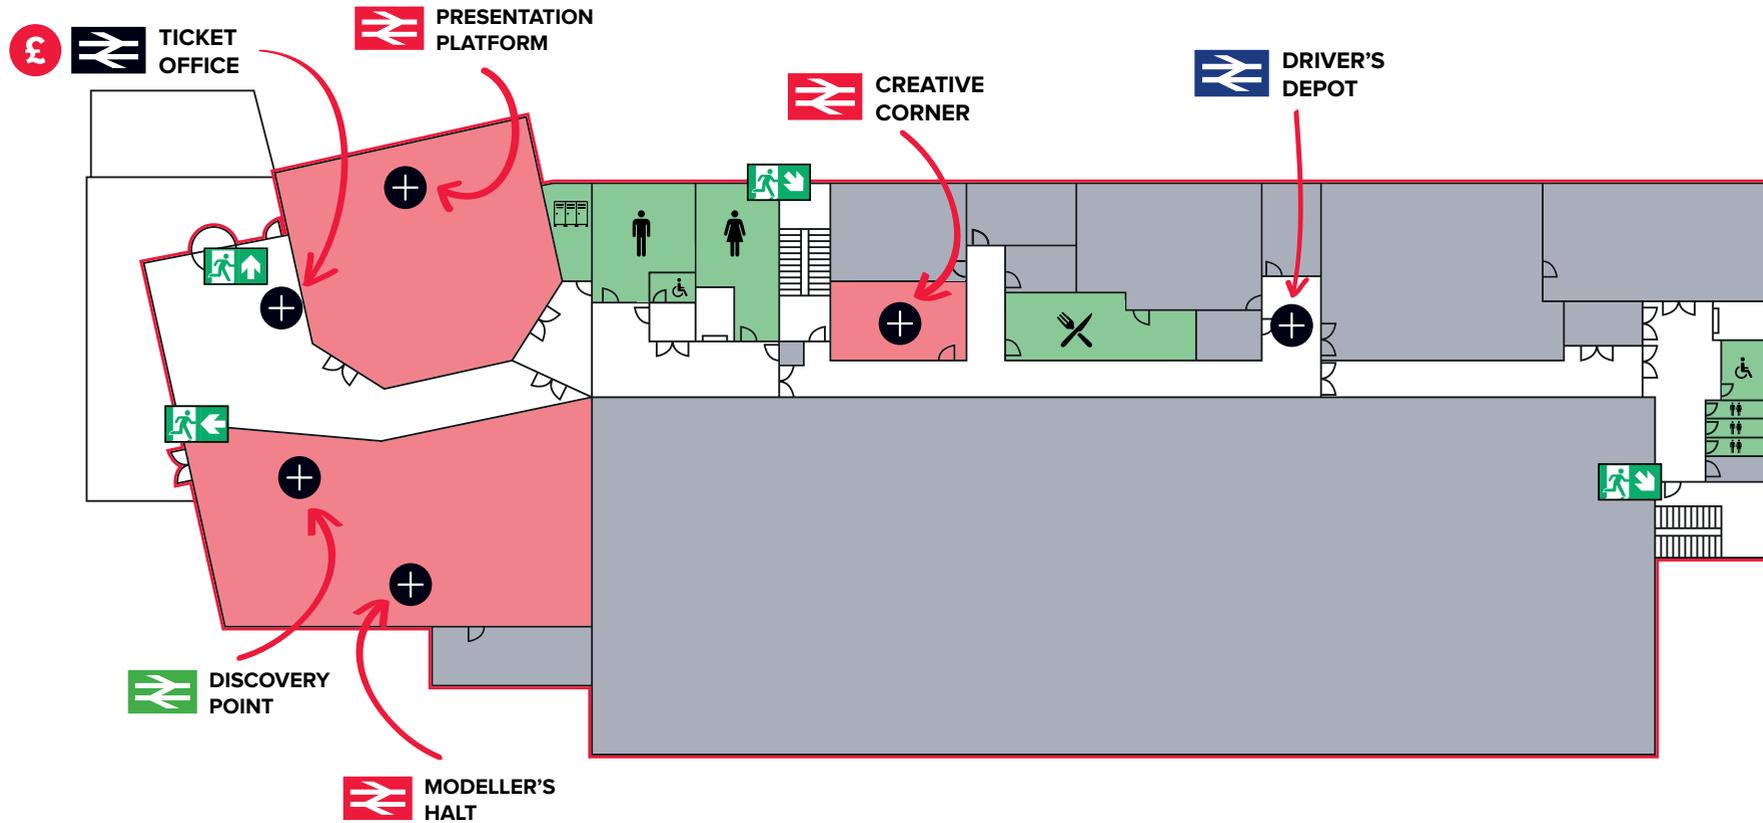

You are invited to join us

**Designer Class Industrial Printers**

**CONSTRUCT3D**

Introducing the UK's fastest premium 3D printer – our cutting-edge technology is designed to deliver industrial grade quality, packaged in a beautiful form-factor. This love letter to 3D printing enables designers and engineers to focus on what they do best.

Independently tested and validated class leading performance means you can print larger and more complex models in less time than ever before with full confidence, allowing you to take your projects to the next level.

The Construct 1 is the UK's fastest 3D printer, boasting exceptional quality, speed, and reliability. With a print speed that is 5x faster than the competition, the Construct 1 is the perfect choice for those who are looking for a high performance printer that can handle a wide range of printing projects.

If you want to print larger more complex parts, the Construct 1 XL is perfect for you. Featuring the same advanced motion control system, and a high-performance extruder, the Construct 1 XL is great for larger parts or batch printing. The Construct 1 XL is a hot favourite for heavier industry, currently beloved and deployed in both the Defence and Rail sectors.

Starting At £695

# SUPPORTING THE UK RAIL INDUSTRY

## President of Railway Benefit Fund, Pete Waterman OBE

My love of rail began in 1947, where I was born to the sounds of engines chugging past my cot. The UK railway industry has always been close to my heart, because let's face it railway people are fabulous.

Which is why I am proud of my role as President of RBF, to help raise the profile of the great work we do. The history of the charity is just incredible, some of its patrons in the past have included Charles Dickens. It's rewarding to be a part of a charity which supports railway people facing hardship in the UK.

### Who we are

Railway Benefit Fund is a non-membership charity that provides financial support to the railway community and their dependents across the UK.

We have been supporting railway people for over 165 years. Every four minutes somebody reaches out to RBF for help and advice.

### How we support you

We offer a range of support services, for the UK rail industry, including confidential advice, online resources, a dedicated legal helpline and financial grants. These support services are designed to help individuals and families navigate life's unexpected challenges.

## What you can do to support our railway family?

We rely solely on the generous support of our railway industry to raise vital funds for railway people facing hardships. Thank you.

Railway Benefit Fund, 1st Floor Millennium House, 40 Nantwich Road, Crewe, CW2 6AD

 Registered Charity No: 206312/SC039550

WHAT'S ON  
LEVEL 2

MODELLER'S  
HALT

## Cradley Health Model Railway Club

### Blackbrook Halt

Set in the 1960s, this fictional Black Country yard served a ship anchor foundry, with Pannier tanks from Stourbridge and a rarely used halt linking two lines.

### Halfpenny Green

Opened in 1925, the Wombourne branch line was intended to reach Bridgnorth but halted at Halfpenny Green.

### The Basin

Set in 1920s eastern England, the layout is a snapshot of a post war industrial area, where the railway served the canal and local industries.

## West Midlands Narrow Gauge Group

### Cwm Hir

Inspired by Welsh narrow-gauge railways, Cwm Hir portrays a rural Powys line from a century ago.

## West Midlands N Gauge Club

### Gibben Quarry

Gibben Quarry is a fictitious rural station with an off-scene stone quarry, there are sidings for wagons in and out and a tower for loading stone into wagons.

## Will Jarman & Son

### Victoria Bridge

Victoria Bridge is an N Gauge working diorama of the iconic Severn Valley Railway bridge. Trains range from heritage favourites to modern stock, including luxury dining cars and the Class 139 from Stourbridge.

## Birmingham Model Railway Club

### Sainte Marie

Built in just a month, this layout began on 27 August 2023 with only an empty baseboard and a vision. Set in 1960s Sainte Marie, a fictional village in southeast France, it can also represent the 1980s with minor changes to vehicles, figures, and details like Le Tour de France.

### St Michael's Town

A typical small town in western USA depicting an American narrow-gauge line. The layout was designed by Paul Walton and was built with help from other BMRC members including Andrew Weaver and Therese Weaver.

### What's On TV?

A micro layout built inside a vintage TV set with several small modules built by members of the Birmingham model railway club to allow us to (change channel).

### Tehachet Butte F&Cry

A HOe American narrow gauge micro layout built on a cake board, built by 009 society and Birmingham model railway club member Paul Walton.

### 00 Gauge Bicycle Wheel

A unique layout with a loop of 00-gauge track inside a bicycle wheel that allows the weight of the locomotive to turn the wheel.

### Yn Nodi Pren

A typical Welsh narrow-gauge railway depicting a small station in a forest with many hidden animals to find. The layout is named in memory of Andrew's late father Mark Weaver, Yn Nodi Pren is the Welsh translation of Marks Wood.
